Lilium candidum

HARDY LILIES

The real aristocrats of the bulb world are the Lilies. Plant them deep—6 to 9 inches, except Candidum which should be 2 to 3 inches. They do well among evergreens and shrubs or in the perennial border where the bulbs can have some low-growing bushy plants to protect them. Most Lily bulbs do not arrive in our country until November or December. Where the ground is liable to freeze before Lilies arrive, it should be mulched with leaves or manure.

Auratum (Golden-rayed Lily of Japan). Delivery November or December. Jumbo bulbs, 11 to 13 in., 40 cts. each; $4 per doz.

Candidum (Madonna Lily). Delivery August or September.
Jumbo bulbs, 40 cts. each; $4 per doz.; $30 per 100.
First-size bulbs, 20 cts. each; $2 per doz.; $12 per 100.

Speciosum magnificum. Beautiful Oriental pink Lily. Delivery November or December. Jumbo bulbs, 11 to 13 in., 40 cts. each; $4 per doz.

Philippinense formosanum. A magnificent hardy Lily with trumpet-shaped, white blooms, suffused on outside with reddish brown. Blooms from late August until frost. Grows 3 to 5 feet tall. 25 cts. each; $2.50 per doz.

Regale (The Royal Lily). A beautiful white Lily, slightly tinged pink, with a shade of canary-yellow at center. Delivery in October.
Monster bulbs, 10 to 11 in., 50 cts. each; $4.50 per doz.; $35 per 100.
First-size bulbs, 7 to 8 in., 20 cts. each; $1.80 per doz.; $12 per 100.

Tenuifolium (Coral Lily). A dwarf, very graceful Lily with thread-like leaves and clusters of nodding, tiny, bell-like, recurved flowers of brilliant coral-red in June. Likes damp soil among rocks, with access to sunlight above. Plant 6 inches deep. 20 cts. each; $1.50 per doz.; $10 per 100.

GIANT-FLOWERING CROCUS

These are large, selected bulbs of the best varieties and are noted for the immense size and quantity of their flowers and richness of color. The small, cheap bulbs we do not handle, as they fail to give satisfaction. Plant as an edging to beds, in careless patches in the grass, in masses among shrubs, or on slopes of terraces.

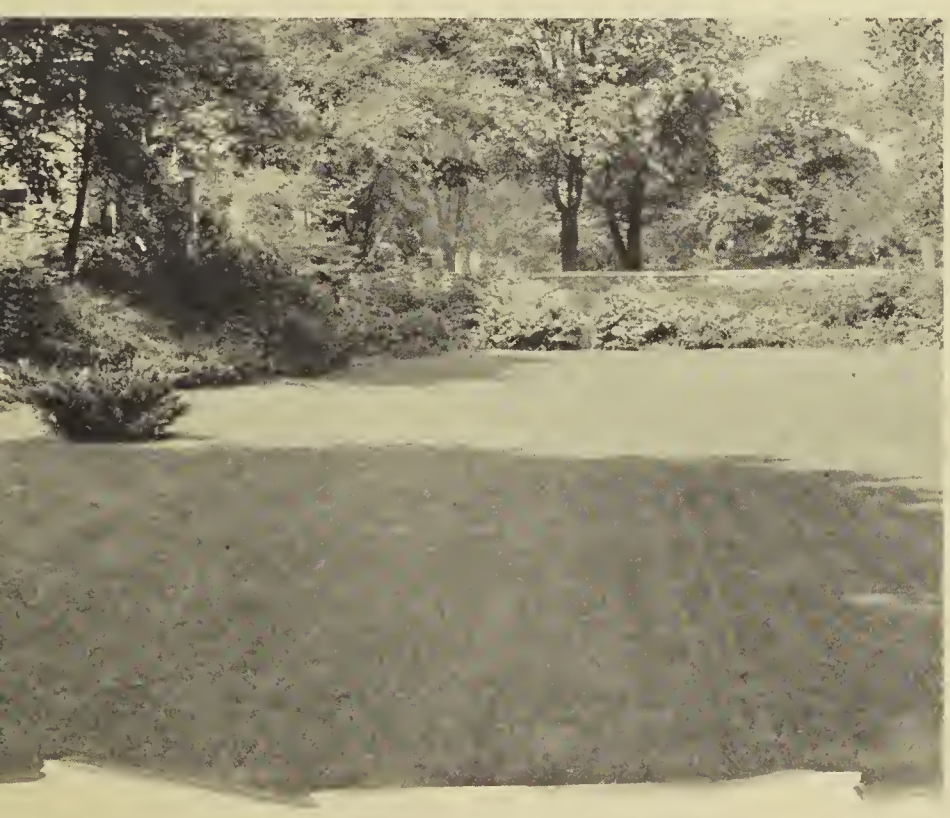
WOODGRO "SPECIAL BENT" MIXTURE OF LAWN GRASS SEED

We guarantee 25% Creeping Bent in this mixture

This superb mixture of Bent and other superior grasses has been blended to meet the insistent demand for a lawn mixture which will produce a velvety turf equal to that of the putting-green. If sown in carefully prepared and properly fertilized ground, this mixture will positively produce a turf far finer than can be expected from a lawn grass mixture which does not contain such expensive creeping grasses. The major portion of the mixture consists of northern-grown Rhode Island Bent, virtually pure Bent. No Clover of any kind is allowed in this blend. A turf of surpassing texture and of a deep, rich green color may confidently be expected from the sowing of this superb blend of choice creeping grasses. Weighs over 25 pounds to the bushel. **Lb. 65 cts.; 2 lbs. $1.25; 5 lbs. $3; 10 lbs. $5.75; 25 lbs. $13.50; 100 lbs. $50.**



WOODGRO MIXTURE FOR SHADY PLACES

There are always spots under trees and in the shadow of buildings where the sun-loving grasses will not grow. For places of this kind we have prepared a careful Mixture of those grasses which naturally thrive in the shade. This Mixture consists of the highest grade of recleaned seeds, and should produce a good lawn in difficult shady places. Even shade-loving grasses will not grow under trees without being watered because the tree roots are very greedy and absorb the moisture from the surface quickly. Weighs over 20 pounds to the bushel. **Lb. 65 cts.; 2 lbs. $1.25; 5 lbs. $3; 10 lbs. $5.50; 20 lbs. $10.50; 100 lbs. $50.**

WOODGRO CHOICE CENTRAL PARK MIXTURE

In this Mixture the quantities of some of the more expensive grasses are reduced or left out. Produces a thick turf, well adapted to hard usage. Weighs over 20 pounds to the bushel. **Lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. $1.75; 10 lbs. $3.50; 20 lbs. $6.50; 100 lbs. $30.**

WOODGRO TERRACE MIXTURE

This is a special mixture of grasses best suited for sowing on terraces and side-hills—grasses that produce strong, spreading roots, thus preventing heavy rains from washing them out, that will withstand drought and exposure, thrive on shallow soils and at the same time produce a rich green turf throughout the season. **Lb. 65 cts.; 5 lbs. $3; 20 lbs. $11; 100 lbs. $52.**

NEW JERSEY LAWN FORMULAS

The New Jersey Experiment Station, New Brunswick, N. J., has published a series of Lawn Seed Formulas which they advise as being most suited to the climate and soil conditions of that state. These mixtures are accurately made up of new-crop seed of the recommended varieties. We use ingredients higher in purity and germination than required by the Experiment Station's specifications.

THE BOOK OF BULBS. By F. F. Rockwell

Order a copy when you send for bulbs. It will give you just the information you need to get the utmost in return for your investment in bulbs. 264 pages; 187 illustrations. Cloth. Price, $2.

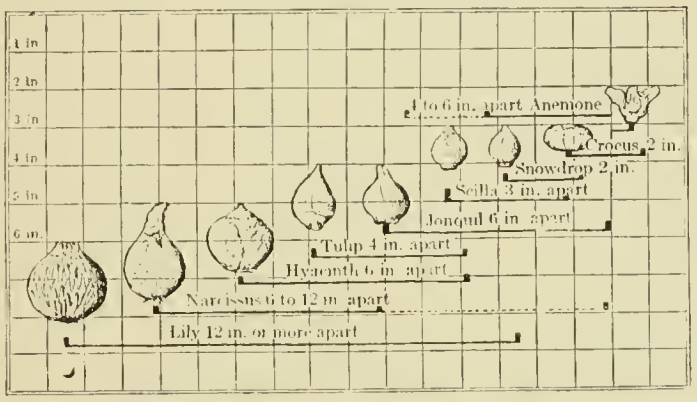
Fall-Planted Bulbs Need Food and Care Now

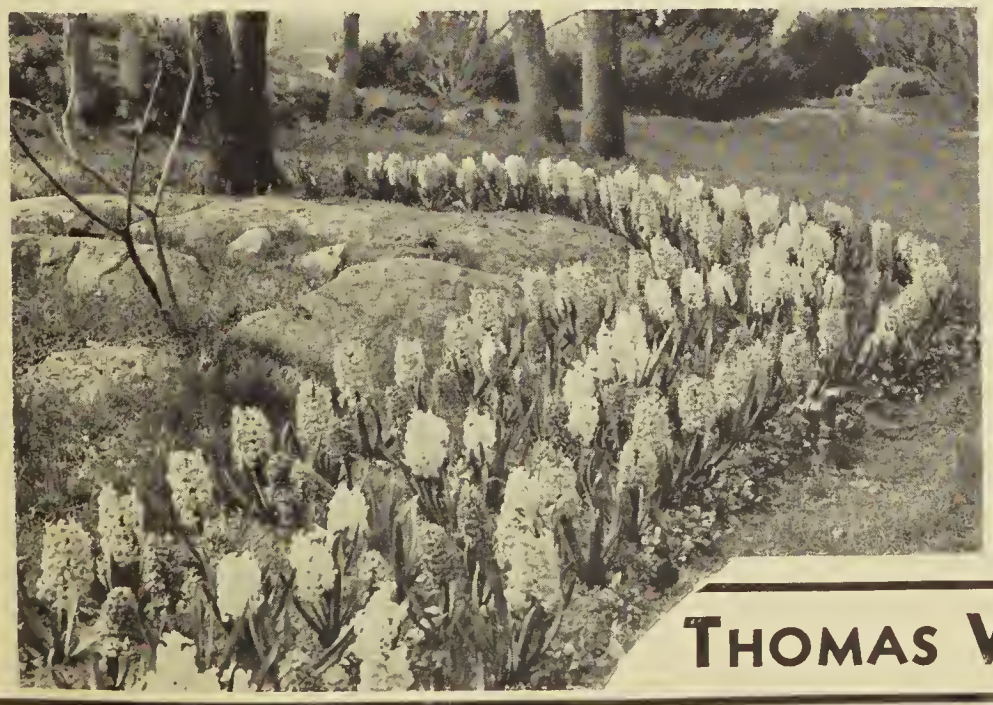
Due to unusually early Spring growth, bulbs must be fed in the Fall

Very often when the bulbs which you plant in the Fall do not seem to develop properly in the Spring, there is a simple reason. In many cases the reason is the lack of a good supply of balanced plant-food in the Fall and early in the Spring.

For better blooms, incorporate with the soil, when you are planting, a liberal supply of **WOODGRO Dehydrated Cow Manure,** Nature's Natural Organic Fertilizer.

Depth at Which Bulbs Should Be Planted Outdoors





MIXED NARCISSUS or DAFFODILS

This Special Mixture of all varieties is very suitable for growing in masses for garden decoration, and is particularly adapted for mixed borders, "naturalizing" in shrubbery by woodland walks, in woods by streams and lakes and semi-wild, outlying grounds. All the varieties are perfectly hardy and will flourish and increase for many years. 50 cts. per doz.; $4 per 100; $35 per 1000.

PARROT TULIP, FANTASY

This magnificent pink Parrot Tulip is a sport of Clara Butt, with the same habits in every way as to color, height, strength of stem, and time of flowering. The flowers are of quaint and beautiful form, the laciniated petals having curious excrescences on the outside. It is not only the strangely exciting form of this Tulip or its main color, which is a delightful warm pink, that enthralls one; it is the inner color of it, a deep and velvety rose-color which is more sumptuous than words can tell. The wonderful encrestation on backs of petals is like an enameling of apple-green. One of the virtues of this wonderful flower is its stiff, straight stem. **10 cts. each; $1 per doz.; $8 per 100.**

SUNDEW. 28 in. Deep crimson, with finely fringed edges as if cut with small scissors. 10 cts. each; 80 cts. per doz.; $5.50 per 100.
